WINDOWS XP

BIAS will no longer install BIAS Software on XP computers. Microsoft discontinued support for Windows XP in April of 2014. Since then we have continued to support Windows XP, however the risks involved in maintaining an unsupported OS in today's environment is great. Therefore we will be discontinuing support for Windows XP as of the end of 2014. This means we will no longer install BIAS software on XP machines and we will provide a very limited if any troubleshooting for existing XP machines.

BIAS offers several installation options including: Stand alone, Workgroup, Client-server, and **(new!)** Hosted. Our IT staff will work with you to find the right fit for your organization.

Please feel free to contact us if you have any questions about the Order Form details.

Upon signature by Customer and submission to BIAS, this Order Form shall become legally binding and governed by the Master Subscription Agreement between BIAS and Customer unless otherwise agreed by BIAS and Customer.
