**RE: SEPA 2022.0200-Development of 50-acres digester within the Port of Sunnyside.**

Dear Mr. Martin:

Thank you for providing the Yakima Regional Clean Air Agency (YRCAA) the opportunity to review and comment on SEPA 2022.0200 for development of a digester on 50-acres within the Port of Sunnyside. Sunnyside, WA.

Following review YRCAA has the following comment(s):

1. A New Source Review (NSR) application must be submitted to YRCCA and an order of approval permit must be issued prior to the start of any work; and
2. Contractors doing demolition, excavation, clearing, construction, or landscaping work must file a Dust Control Plan with YRCAA and get approval, prior to the start of any work;

Thank you for the opportunity to connect with the county's continued support in protecting the air quality in Yakima County.

Best regards,

Hasan M. Tahat, Ph.D.  
Engineering and Planning Division Supervisor  
Yakima Regional Clean Air Agency
